Swissindo World Trust International Orbit

Payments 1-11  
Is  
The Only Solution

The World and its population have long suffered through the current monetary slavery system that has crippled the world for hundreds of years, that is known as the current Global Crisis. Our beloved Indonesian first President Soekarno and US President John F Kennedy saw what was happening to their countries and the people around the world.

In 1963, The Green Hilton Memorial Agreement was signed by Indonesian President Soekarno, President John F. Kennedy and William Vouker representing Switzerland in Geneva, Switzerland. The triangular agreement was done at the Hilton Hotel in Geneva on 14 November 1963 as part of U.S. government acknowledgement for the existence of gold bullion from Indonesia and it was to be used as collateral for the U.S. financial world to further issuance of US Dollars in order to continue to facilitate the International Trade. The operation was to be conducted by the Swiss Government through the Union Bank of Switzerland (UBS). The potential of this agreement led to Executive Order 11110, which would have provided the Department of the U.S. Treasury the power to issue United States Dollars. On the 22 November 1963; only eight days after the signing of the Green Hilton Agreement, Kennedy was assassinated. The authority granted to the U.S. Treasury was never taken up.

The main purpose of this agreement was to free the American people from the Banking cartels tyranny and the debt slavery system in which Humanity is caught up today. This freedom could have led to financial freedom of the world. With the death of the President Kennedy and President Soekarno, this plan never came to fruition, which laid the framework for the international cooperation that has now resulted in this MISSION.

Since 2001, H.M. MR. A1.SINO.AS.S'2' .IR.SOEGIHARTONOTONEGORO, ST. M1, Royal K.681 is the Big Top President of Swissindo World Trust International Orbit, NEO the United Kingdom of God Sky Earth and Owner States-M1.
